Question 4
Errors

a) Wrong symbol used in if statement $\geq$. The correct symbol is $>=$

b) Semi colon cannot be used after the condition of if statement. The correct statement is If(a<b&&b<c)

c) Condition format is wrong

d) & | has no meaning in the condition.

Wrong assignment of values to flag:

flag=true;

else

flag=false;

Correct way to write is:

flag=1;

else

flag=0;

e) Wrong use of = operator in the first line in if statement

Wrong use of) with format specifier %c.

Closing quotes " must be used in first printf statement instead of)

There should be , instead of + in 5th line.
